NIOS Open Schooling, Noida

Experience [Web developer intern | TechnoFYX IT Solution | Mar 2025 – Aug 2025]

- Contributed to full-stack web development projects, handling both frontend and backend tasks.
- Designed and implemented responsive user interfaces using HTML, CSS, JavaScript, and ReactJS.
- Worked on backend development with **Node.js** and integrated APIs to enhance application Functionality
- Collaborated with the development team to troubleshoot, optimize, and deliver scalable web solutions.
- Gained hands-on experience in problem-solving, debugging, and writing clean, maintainable code

Projects

Travel Vista   LIVE   --   SOURCE CODE

Tech Stack: Html, CSS, JavaScript, Firestore Database, Firestore Authentication, React, Tailwind, Wikiepedia / Wikimedia Api, React icons, Material UI, Vercel.

- Built a responsive React SPA using Vite and React router with multi-page navigation and a modern dark UI using Tailwind CSS, glassmorphism, gradients, and hover effects
- Integrated Wikidata and Wikipedia APIs using SPARQL to fetch 500+ Indian tourist destinations with geo-coordinates, descriptions, and images from Wikimedia Commons.
- Developed a personalized wishlist system using Firestore, enabling users to save, rate (Favourite/Decent/Maybe), search, filter, and persist preferences across sessions.
- Designed a fully responsive UI for mobile, tablet, and desktop with paginated destination cards, auto-rotating featured carousels, and interactive place detail pages.

                                        LIVE   --   SOURCE CODE

Personal Portfolio

Tech Stack: Html, CSS, JavaScript, React, Tailwind, Framer Motion, Netlify

- Developed a modern personal website showcasing projects, skills, and contact info.
- Styled with Tailwind for fast responsive design.
- Added Framer Motion for smooth animations.
- Ensured cross-device responsiveness with mobile-first design principles.

My Diary Web

Tech Stack: Html, CSS, JavaScript, Supabase Database, Supabase Authentication, React Tailwind, React icons, Material UI, Framer motion, Vercel.

- Developed a responsive Diary App with user authentication and real-time data handling using Supabase (Auth & Database).
- Implemented features to create, edit, delete, and update personal diary entries stored securely in the user's dashboard.
- Built a clean & modern UI using Tailwind CSS, Material UI, and animations with Framer Motion.
- Ensured seamless user experience across devices with a fully responsive design and sleek UI
